

RECYCLING

Thank you to Kay for taking over the recycling for our chorus. We average about \$200 a year, so the effort is very much worthwhile; let's keep it going! These guidelines are for the Auburn Recycling Center, but there are others.

Collect **beverage** containers only. Bring them to chorus on Monday nights. Here are some guidelines to make this project go smoothly.

- ❖ *Aluminum drink cans:* beer, soda, ice tea, fruit juice. **No milk shakes!**
- ❖ *Plastic drink bottles:* Large water bottles welcome. Not all plastics are recyclable; look for "CA Cash Refund" **Please, No milk containers!**
- ❖ *Glass bottles:* beer, iced tea, juice. **Sorry, no wine.**
- ❖ *Sort* aluminum, plastic and glass, and bag them separately. This is not required, but it saves time at the recycling center.
- ❖ *Cans do not have to be crushed* (but you may crush them if you wish).
- ❖ *The Auburn Recycling Center allows you to leave caps* on plastic bottles. If you go to a different center, check their policy.
- ❖ *Tie bags loosely.* Contents have to be checked and sorted.
- ❖ *You can take recyclables to a center yourself.* Turn in the cash to our treasurer, and write down the amount, so that we can keep track of our progress.

Inportant

In Kay's absence, do not leave recyclables behind. Take them with you.
